CAUTIONARY STATEMENTS RELEVANT TO FORWARD-LOOKING INFORMATION FOR THE PURPOSE OF "SAFE HARBOR" PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This quarterly report on Form 10-Q of Chevron Corporation contains forward-looking statements relating to Chevron's operations and energy transition plans that are based on management's current expectations, estimates and projections about the petroleum, chemicals and other energy-related industries. Words or phrases such as "anticipates," "expects," "intends," "plans," "targets," "advances," "commits," "drives," "aims," "forecasts," "projects," "believes," "approaches," "seeks," "schedules," "estimates," "positions," "pursues," "progress," "may," "can," "could," "should," "will," "budgets," "outlook," "trends," "guidance," "focus," "on track," "goals," "objectives," "strategies," "opportunities," "poised," "potential," "ambitions," "aspires" and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and other factors, many of which are beyond the company's control and are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements. The reader should not place undue reliance on these forward-looking statements, which speak only as of the date of this report. Unless legally required, Chevron undertakes no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise.

Among the important factors that could cause actual results to differ materially from those in the forward-looking statements are: changing crude oil and natural gas prices and demand for the company's products, and production curtailments due to market conditions; crude oil production quotas or other actions that might be imposed by the Organization of Petroleum Exporting Countries and other producing countries; technological advancements; changes to government policies in the countries in which the company operates; public health crises, such as pandemics (including coronavirus (COVID-19)) and epidemics, and any related government policies and actions; disruptions in the company's global supply chain, including supply chain constraints and escalation of the cost of goods and services; changing economic, regulatory and political environments in the various countries in which the company operates; general domestic and international economic and political conditions, including the military conflict between Russia and Ukraine and the global response to such conflict; changing refining, marketing and chemicals margins; actions of competitors or regulators; timing of exploration expenses; timing of crude oil liftings; the competitiveness of alternate-energy sources or product substitutes; development of large carbon capture and offset markets; the results of operations and financial condition of the company's suppliers, vendors, partners and equity affiliates, particularly during the COVID-19 pandemic; the inability or failure of the company's joint-venture partners to fund their share of operations and development activities; the potential failure to achieve expected net production from existing and future crude oil and natural gas development projects; potential delays in the development, construction or start-up of planned projects; the potential disruption or interruption of the company's operations due to war, accidents, political events, civil unrest, severe weather, cyber threats, terrorist acts, or other natural or human causes beyond the company's control; the potential liability for remedial actions or assessments under existing or future environmental regulations and litigation; significant operational, investment or product changes undertaken or required by existing or future environmental statutes and regulations, including international agreements and national or regional legislation and regulatory measures to limit or reduce greenhouse gas emissions; the potential liability resulting from pending or future litigation; the company's future acquisitions or dispositions of assets or shares or the delay or failure of such transactions to close based on required closing conditions; the potential for gains and losses from asset dispositions or impairments; government mandated sales, divestitures, recapitalizations, taxes and tax audits, tariffs, sanctions, changes in fiscal terms or restrictions on scope of company operations; foreign currency movements compared with the U.S. dollar; higher inflation and related impacts; material reductions in corporate liquidity and access to debt markets; the receipt of required Board authorizations to implement capital allocation strategies, including future stock repurchase programs and dividend payments; the effects of changed accounting rules under generally accepted accounting principles promulgated by rule-setting bodies; the company's ability to identify and mitigate the risks and hazards inherent in operating in the global energy industry; and the factors set forth under the heading "Risk Factors" on pages 20 through 26 of the company's 2022 Annual Report on Form 10-K and in subsequent filings with the U.S. Securities and Exchange Commission. Other unpredictable or unknown factors not discussed in this report could also have material adverse effects on forward-looking statements.

(3) Beginning and ending total issued share balances include 14,168,000 shares associated with Chevron's Benefit Plan Trust for all periods.

See accompanying notes to consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. General

Basis of Presentation The accompanying consolidated financial statements of Chevron Corporation and its subsidiaries (together, Chevron or the company) have not been audited by an independent registered public accounting firm. In the opinion of the company's management, the interim data includes all adjustments necessary for a fair statement of the results for the interim periods. These adjustments were of a normal recurring nature. The results for the three-month period ended March 31, 2023, are not necessarily indicative of future financial results. The term "earnings" is defined as net income attributable to Chevron. Prior years' data have been reclassified in certain cases to conform to the 2023 presentation basis.

Certain notes and other information have been condensed or omitted from the interim financial statements presented in this Quarterly Report on Form 10-Q. Therefore, these financial statements should be read in conjunction with the company's 2022 Annual Report on Form 10-K.

Note 2. Changes in Accumulated Other Comprehensive Losses

The change in Accumulated Other Comprehensive Losses (AOCL) presented on the Consolidated Balance Sheet and the impact of significant amounts reclassified from AOCL on information presented in the Consolidated Statement of Income for the three months ended March 31, 2023 and 2022 are reflected in the table below.

Changes in Accumulated Other Comprehensive Income (Loss) by Component⁽¹⁾

(Millions of dollars)

	Currency Translation Adjustment	Unrealized Holding Gains (Losses) on Securities	Derivatives	D	efined Benefit Plans	Total
Balance at December 31, 2021	\$ (162)	\$ (11)	\$ _	\$	(3,716)	\$ (3,889)

The Consolidated Statement of Cash Flows excludes changes to the Consolidated Balance Sheet that did not affect cash.

The "Other" line in the Operating Activities section includes changes in postretirement benefits obligations and other long-term liabilities.

The company paid dividends of \$1.51 per share of common stock in first quarter 2023. This compares to dividends of \$1.42 per share paid in the year-ago corresponding period.

The components of "Capital expenditures" are presented in the following table:

		onths Ended rch 31			
	2023	2022			
	(Million	ons of dollars)			
Additions to properties, plant and equipment	\$ 2,907	\$ 1,732			
Additions to investments	111	158			
Current-year dry hole expenditures	20	70			
Payments for other assets and liabilities, net	—	—			
Capital expenditures	\$ 3,038	\$ 1,960			

The table below quantifies the beginning and ending balances of restricted cash and restricted cash equivalents in the Consolidated Balance Sheet:

	At M	arch 3	1		1	
	2023 2022				2022	2021
	 (Millions	of dol	lars)		(Millions of dolla	rs)
Cash and cash equivalents	\$ 15,668	\$	11,671	\$	17,678 \$	5,640
Restricted cash included in "Prepaid expenses and other current assets"	357		317		630	333
Restricted cash included in "Deferred charges and other assets"	874		818		813	822
Total cash, cash equivalents and restricted cash	\$ 16,899	\$	12,806	\$	19,121 \$	6,795

Additional information related to restricted cash is included in Note 12 Fair Value Measurements under the heading "Restricted Cash."

Note 4. Summarized Financial Data — Tengizchevroil LLP

Chevron has a 50 percent equity ownership interest in Tengizchevroil LLP (TCO). Summarized financial information for 100 percent of TCO is presented in the following table:

		Three Months Ended March 31					
	2023 2022						
		(Millions	of dollars))			
Sales and other operating revenues	\$	4,999	\$	6,187			
Costs and other deductions		2,665		2,978			
Net income attributable to TCO	\$ 1,658 \$ 2,2						

Note 5. Summarized Financial Data — Chevron U.S.A. Inc.

Chevron U.S.A. Inc. (CUSA) is a major subsidiary of Chevron Corporation. CUSA and its subsidiaries manage and operate most of Chevron's U.S. businesses. Assets include those related to the exploration and production of crude oil, natural gas and natural gas liquids and those associated with refining, marketing, and supply and distribution of products derived from petroleum, excluding most of the regulated pipeline operations of Chevron. CUSA also holds the company's investment in the Chevron Phillips Chemical LLC (CPChem) joint venture, which is accounted for using the equity method.

The summarized financial information for CUSA and its consolidated subsidiaries is as follows:

		Three Months Ended March 31					
		2023					
		(Millions o	of dollars))			
Sales and other operating revenues	\$	37,729	\$	41,502			
Costs and other deductions		35,522		39,636			
Net income (loss) attributable to CUSA	\$	1,830	\$	1,754			
	A	at March 31, 2023		December 31, 2022			
		(Millions o	of dollars))			
Current assets	\$	18,348	\$	18,704			
Other assets		50,969		50,153			
Current liabilities		20,756		22,452			
Other liabilities		19,582		19,274			
Total CUSA net equity	\$	28,979	\$	27,131			
Memo: Total debt	\$	10,628	\$	10,800			

Note 6. Operating Segments and Geographic Data

Although each subsidiary of Chevron is responsible for its own affairs, Chevron Corporation manages its investments in these subsidiaries and their affiliates. The investments are grouped into two business segments, Upstream and Downstream, representing the company's "reportable segments" and "operating segments." Upstream operations consist primarily of exploring for, developing, producing and transporting crude oil and natural gas; liquefaction, transportation and regasification associated with liquefied natural gas (LNG); transporting crude oil by major international oil export pipelines; processing, transporting, storage and marketing of natural gas; and a gas-to-liquids plant. Downstream operations consist primarily of refining of crude oil into petroleum products; marketing of crude oil, refined products, and lubricants; manufacturing and marketing of renewable fuels; transporting of crude oil and refined products by pipeline, marine vessel, motor equipment and rail car; and manufacturing and marketing of commodity petrochemicals, plastics for industrial uses, and fuel and lubricant additives. "All Other" activities of the company include worldwide cash management and debt financing activities, corporate administrative functions, insurance operations, real estate activities, and technology companies.

The company's segments are managed by "segment managers" who report to the "chief operating decision maker" (CODM). The segments represent components of the company that engage in activities (a) from which revenues are earned and expenses are incurred; (b) whose operating results are regularly reviewed by the CODM, which makes decisions about resources to be allocated to the segments and assesses their performance; and (c) for which discrete financial information is available.

The company's primary country of operation is the United States of America, its country of domicile. Other components of the company's operations are reported as "International" (outside the United States).

Segment Earnings The company evaluates the performance of its operating segments on an after-tax basis, without considering the effects of debt financing interest expense or investment interest income, both of which are managed by the company on a worldwide basis. Corporate administrative costs and assets are not allocated to the operating segments. However, operating segments are billed for the direct use of corporate services. Nonbillable costs remain at the corporate level in "All Other." Earnings by major operating area for the three-month period ended March 31, 2023 and 2022, are presented in the following table:

		Three Months Ended March 31		
	2	2023	2022	
Segment Earnings		(Millions of dollars)		
Upstream				
United States	\$	1,781 \$	3,238	
International		3,380	3,696

Total Assets — International	160,384		159,204
Goodwill	4,722		4,722
Total Assets	\$ 255,886	\$	257,709

Segment Sales and Other Operating Revenues Segment sales and other operating revenues, including internal transfers, for the three-month period ended March 31, 2023 and 2022, are presented in the following table. Products are transferred between operating segments at internal product values that approximate market prices. Revenues for the upstream segment are derived primarily from the production and sale of crude oil and natural gas, as well as the sale of third-party production of natural gas. Revenues for the downstream segment are derived primarily from the refining and marketing of petroleum products such as gasoline, jet fuel, gas oils, lubricants, residual fuel oils, other products derived from crude oil, and manufacturing and marketing of renewable fuels. This segment also generates revenues from the manufacture and sale of fuel and lubricant additives and the transportation and trading of refined products and crude oil. "All Other" activities include revenues from insurance operations, real estate activities and technology companies.

	Three	e Months Ended March 31
	2023	2022
Sales and Other Operating Revenues	(Mi	llions of dollars)

Intersegment Elimination — International	(3,	035) (3,980)
Total Sales and Other Operating Revenues	\$ 48,	842 \$ 52,314

Note 7. Employee Benefits

Chevron has defined benefit pension plans for many employees. The company typically prefunds defined benefit plans as required by local regulations or in certain situations where prefunding provides economic advantages. In the United States, all qualified plans are subject to the Employee Retirement Income Security Act minimum funding standard. The company does not typically fund U.S. nonqualified pension plans that are not subject to funding requirements under laws and regulations because contributions to these pension plans may be less economic and investment returns may be less attractive than the company's other investment alternatives.

The company also sponsors other postretirement employee benefit (OPEB) plans that provide medical and dental benefits, as well as life insurance for some active and qualifying retired employees. The plans are unfunded, and the company and the retirees share the costs. For the company's main U.S. medical plan, the increase to the pre-Medicare company contribution for retiree medical coverage is limited to no more than four percent each year. Certain life insurance benefits are paid by the company.

The components of net periodic benefit costs for 2023 and 2022 are as follows:

		Three Months Ended March 31					
	202	3	2022				
		(Millions of	f dollars)				
Pension Benefits							
United States							
Service cost	\$	86	\$	118			
Interest cost		112		66			
Expected return on plan assets		(140)		(161)			
Amortization of prior service costs (credits)		1					
Amortization of actuarial losses (gains)		51		65			
Settlement losses		_		86			
Total United States		110		174			
International							
Service cost		15		22			
Interest cost		47		36			
Expected return on plan assets		(51)		(48)			
Amortization of prior service costs (credits)		2		2			
Amortization of actuarial losses (gains)		2		4			
Settlement losses				_			
Acquisitions / (divestitures)		(2)					
Total International		13		16			
Net Periodic Pension Benefit Costs	\$	123	\$	190			
Other Benefits*							
Service cost	\$	8	\$	11			
Interest cost		24		15			
Amortization of prior service costs (credits)		(6)		(6)			
Amortization of actuarial losses (gains)		(5)		3			
Net Periodic Other Benefit Costs	\$	21	\$	23			

* Includes costs for U.S. and international OPEB plans. Obligations for plans outside the United States are not significant relative to the company's total OPEB obligation.

Through March 31, 2023, a total of \$345 million was contributed to employee pension plans (including \$304 million to the U.S. plans). Contribution amounts are dependent upon plan investment returns, changes in pension obligations, regulatory requirements and other economic factors. Additional funding may ultimately be required if investment returns are insufficient to offset increases in plan obligations.

During the first three months of 2023, the company contributed \$46 million to its OPEB plans.

Note 8. Assets Held For Sale

At March 31, 2023, the company classified \$432 million of net properties, plant and equipment as "Assets held for sale" on the Consolidated Balance Sheet. These assets are associated with upstream operations that are anticipated to be sold in the next 12 months. The revenues and earnings contributions of these assets in 2022 and the first three months of 2023 were not material.

Note 9. Income Taxes

The income tax expense increased between quarterly periods from \$2.8 billion in 2022 to \$2.9 billion in 2023. The company's income before income tax expense increased \$465 million from \$9.1 billion in 2022 to \$9.5 billion in 2023, primarily due to higher downstream margins partially offset by lower upstream realizations. The company's effective tax rate remained unchanged between quarterly periods at 31 percent in 2022 and 2023.

Tax positions for Chevron and its subsidiaries and affiliates are subject to income tax audits by many tax jurisdictions throughout the world. For the company's major tax jurisdictions, examinations of tax returns for certain prior tax years had not been completed as of March 31, 2023. For these jurisdictions, the latest years for which income tax examinations had been finalized were as follows: United States — 2016, Nigeria — 2007, Australia — 2010, Kazakhstan — 2012 and Saudi Arabia — 2016.

The company engages in ongoing discussions with tax authorities regarding the resolution of tax matters in the various jurisdictions. Both the outcomes for these tax matters and the timing of resolution and/or closure of the tax audits are highly uncertain. Given the number of years that still remain subject to examination and the number of matters being examined in the various tax jurisdictions, the company is unable to estimate the range of possible adjustments to the balance of unrecognized tax benefits beyond the next 12 months.

Note 10. Litigation

Ecuador

In 2003, Chevron was sued in Ecuador for environmental harm allegedly caused by an oil consortium formerly operated by a Texaco subsidiary. The subsidiary previously had been released from environmental claims by Ecuador after it completed a three-year remediation program, which Ecuador certified. Nonetheless, in February 2011, the Ecuadorian trial court entered judgment against Chevron for approximately \$9.5 billion, plus punitive damages. An appellate panel affirmed, and Ecuador's National Court of Justice ratified the judgment but nullified the punitive damages. Ecuador's highest Constitutional Court rejected Chevron's final appeal in July 2018.

In 2011, Chevron sued the Ecuadorian plaintiffs and several of their lawyers and cohorts in the U.S. District Court for the Southern District of New York (SDNY) for violations of the Racketeer Influenced and Corrupt Organizations (RICO) Act and state law. The SDNY ruled that the Ecuadorian judgment had been procured through fraud, bribery, and corruption, and prohibited the defendants from seeking to enforce the judgment in the United States or profiting from their illegal acts. The Second Circuit affirmed, and the U.S. Supreme Court denied certiorari in 2017. The Ecuadorian plaintiffs sought to have the Ecuadorian judgment recognized and enforced in Canada, Brazil, and Argentina, but all of those actions were dismissed in Chevron's favor.

In 2009, Chevron filed an arbitration claim against Ecuador before an arbitral tribunal administered by the Permanent Court of Arbitration in The Hague, under the United States-Ecuador Bilateral Investment Treaty. In 2018, the Tribunal ruled that the Ecuadorian judgment was procured through fraud, bribery, and corruption, and was based on environmental claims that Ecuador had already settled and released. According to the Tribunal, the Ecuadorian judgment "violates international public policy" and "should not be recognized or enforced by the courts of other States." The Tribunal ordered Ecuador to remove the judgment's status of enforceability and to compensate Chevron for its injuries. The arbitration's final phases, to determine the amount of compensation owed to Chevron and to allocate the arbitration's costs, remain pending. In 2020, the District Court of The Hague denied Ecuador's request to set aside the Tribunal's award. Based on Ecuador's admissions during the litigation, the Court stated that it now is "common ground" between Ecuador and Chevron that the Ecuadorian judgment is fraudulent. In June 2022, The Hague Court of Appeals dismissed Ecuador's appeal. In September 2022, Ecuador appealed to the Dutch Supreme Court. In a separate proceeding before the Office of the United States Trade Representative, Ecuador also admitted in July 2020 that the Ecuadorian judgment is fraudulent.

Management continues to believe that the Ecuadorian judgment is illegitimate and unenforceable and will vigorously defend against any further attempts to have it recognized or enforced.

Climate Change

Governmental and other entities in various jurisdictions across the United States have filed legal proceedings against fossil fuel producing companies, including Chevron entities, purporting to seek legal and equitable relief to address alleged impacts of climate change. Chevron entities are or were among the codefendants in 23 separate lawsuits brought by 17 U.S. cities and counties, three U.S. states, the District of Columbia, a group of municipalities in Puerto Rico and a trade group. One of the city lawsuits was dismissed on the merits, and one of the county lawsuits was voluntarily dismissed by the plaintiff. The lawsuits assert various causes of action, including public nuisance, private nuisance, failure to warn, fraud, conspiracy to commit fraud, design defect, product defect, trespass, negligence, impairment of public trust, violations of consumer protection statutes, violations of a federal antitrust statute, and violations of federal and state RICO statutes, based upon, among other things, the company's production of oil and gas products and alleged misrepresentations or omissions relating to climate change risks associated with those products. Further such proceedings are likely to be filed by other parties. As of April 2023, the Supreme Court has denied petitions for writ of certiorari on jurisdictional questions in many of these cases, and those cases have been or will be remanded to state court. The unprecedented legal theories set forth in these proceedings entail the possibility of damages liability (both compensatory and punitive), injunctive and other forms of equitable relief, including without limitation abatement and disgorgement of profits, civil penalties and liability for fees and costs of suits, that, while we believe remote, could have a material adverse effect on the company's results of operations and financial condition. Management believes that these proceedings are legally and factually meritless and detract from constructive efforts to address the important policy issues present

Louisiana

Seven coastal parishes and the State of Louisiana have filed lawsuits in Louisiana against numerous oil and gas companies seeking damages for coastal erosion in or near oil fields located within Louisiana's coastal zone under Louisiana's State and Local Coastal Resources Management Act (SLCRMA). Chevron entities are defendants in 39 of these cases. The lawsuits allege that the defendants' historical operations were conducted without necessary permits or failed to comply with permits obtained and seek damages and other relief, including the costs of restoring coastal wetlands allegedly impacted by oil field operations. As of the first quarter of 2023, the Supreme Court has denied petition for writ of certiorari on jurisdictional questions impacting certain of these cases, and those cases have been or will be remanded to Louisiana state court. These cases are progressing to trial in state court, with the first trial scheduled to begin as early as the fourth quarter of 2023. Jurisdictional questions are still being decided for other cases that remain in Federal court at this time. Plaintiffs' SLCRMA theories are unprecedented; thus, there remains significant uncertainty about the scope of the claims and alleged damages and any potential effects on the company's results of operations and financial condition. Management believes that the claims lack legal and factual merit and will continue to vigorously defend against such proceedings.

Note 11. Other Contingencies and Commitments

Income Taxes The company calculates its income tax expense and liabilities quarterly. These liabilities generally are subject to audit and are not finalized with the individual taxing authorities until several years after the end of the annual period for which income taxes have been calculated. Refer to <u>Note 9 Income Taxes</u> for a discussion of the periods for which tax returns have been audited for the company's major tax jurisdictions.

Settlement of open tax years, as well as other tax issues in countries where the company conducts its businesses, are not expected to have a material effect on the consolidated financial position or liquidity of the company and, in the opinion of management, adequate provision has been made for income taxes for all years under examination or subject to future examination.

Guarantees The company and its subsidiaries have certain contingent liabilities with respect to guarantees, direct or indirect, of debt of affiliated companies or third parties. Under the terms of the guarantee arrangements, the company would generally be required to perform should the affiliated company or third party fail to fulfill its obligations under the arrangements. In some cases, the guarantee arrangements may

have recourse provisions that would enable the company to recover any payments made under the terms of the guarantees from assets provided as collateral.

Indemnifications The company often includes standard indemnification provisions in its arrangements with its partners, suppliers and vendors in the ordinary course of business, the terms of which range in duration and sometimes are not limited. The company may be obligated to indemnify such parties for losses or claims suffered or incurred in connection with its service or other claims made against such parties.

Long-Term Unconditional Purchase Obligations and Commitments, Including Throughput and Take-or-Pay Agreements The company and its subsidiaries have certain contingent liabilities with respect to long-term unconditional purchase obligations and commitments, including throughput and take-or-pay agreements, some of which may relate to suppliers' financing arrangements. The agreements typically provide goods and services, such as pipeline and storage capacity, utilities, and petroleum products, to be used or sold in the ordinary course of the company's business.

Environmental The company is subject to loss contingencies pursuant to laws, regulations, private claims and legal proceedings related to environmental matters that are subject to legal settlements or that in the future may require the company to take action to correct or ameliorate the effects on the environment of prior release of chemicals or petroleum substances by the company or other parties. Such contingencies may exist for various operating, closed and divested sites, including, but not limited to, U.S. federal Superfund sites and analogous sites under state laws, refineries, chemical plants, marketing facilities, crude oil fields, and mining sites.

Although the company has provided for known environmental obligations that are probable and reasonably estimable, it is likely that the company will continue to incur additional liabilities. The amount of additional future costs are not fully determinable due to such factors as the unknown magnitude of possible contamination, the unknown timing and extent of the corrective actions that may be required, the determination of the company's liability in proportion to other responsible parties, and the extent to which such costs are recoverable from third parties. These future costs may be material to results of operations in the period in which they are recognized, but the company does not expect these costs will have a material effect on its consolidated financial position or liquidity.

Other Contingencies Chevron receives claims from and submits claims to customers; trading partners; joint venture partners; U.S. federal, state and local regulatory bodies; governments; contractors; insurers; suppliers; and individuals. The amounts of these claims, individually and in the aggregate, may be significant and take lengthy periods to resolve, and may result in gains or losses in future periods.

The company and its affiliates also continue to review and analyze their operations and may close, retire, sell, exchange, acquire or restructure assets to achieve operational or strategic benefits and to improve competitiveness and profitability. These activities, individually or together, may result in significant gains or losses in future periods.

Note 12. Fair Value Measurements

The three levels of the fair value hierarchy of inputs the company uses to measure the fair value of an asset or liability are described as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities. For the company, Level 1 inputs include exchange-traded futures contracts for which the parties are willing to transact at the exchange-quoted price and marketable securities that are actively traded.

Level 2: Inputs other than Level 1 that are observable, either directly or indirectly. For the company, Level 2 inputs include quoted prices for similar assets or liabilities, prices obtained through third-party broker quotes and prices that can be corroborated with other observable inputs for substantially the complete term of a contract.

Level 3: Unobservable inputs. The company does not use Level 3 inputs for any of its recurring fair value measurements. Level 3 inputs may be required for the determination of fair value associated with certain nonrecurring measurements of nonfinancial assets and liabilities.

The fair value hierarchy for assets and liabilities measured at fair value at March 31, 2023, and December 31, 2022, is as follows:

Assets and Liabilities Measured at Fair Value on a Recurring Basis

			(Millio	ns c	of dollars)										
			At Marc	h 3	1, 2023				At December 31, 2022						
	Total	al Level 1 Level 2 Level 3									Level 1		Level 2	Level 3	
Marketable Securities	\$ 130	\$	130	\$	—	\$	—	\$	223	\$	223	\$	—	\$	—
Derivatives - not designated	157		87		70		—		184		111		73		—
Derivatives - designated	2		2		—		—		—		—		—		—
Total Assets at Fair Value	\$ 289	\$	219	\$	70	\$	_	\$	407	\$	334	\$	73	\$	_
Derivatives - not designated	103		74		29		_		43		33		10		—
Derivatives - designated	_		—		_		_		15		15		_		_
Total Liabilities at Fair Value	\$ 103	\$	74	\$	29	\$	—	\$	58	\$	48	\$	10	\$	—

Marketable Securities The company calculates fair value for its marketable securities based on quoted market prices for identical assets. The fair values reflect the cash that would have been received if the instruments were sold at March 31, 2023.

Derivatives The company records most of its derivative instruments — other than any commodity derivative contracts that are accounted for as normal purchase and normal sale — on the Consolidated Balance Sheet at fair value, with the offsetting amount to the Consolidated Statement of Income. The company designates certain derivative instruments as cash flow hedges that, if applicable, are reflected in the table above. Derivatives classified as Level 1 include futures, swaps and options contracts valued using quoted prices from active markets such as the New York Mercantile Exchange. Derivatives classified as Level 2 include swaps, options and forward contracts, the fair values of which are obtained from third-party broker quotes, industry pricing services and exchanges. The company obtains multiple sources of pricing information for the Level 2 instruments. Since this pricing information is generated from observable market data, it has historically been very consistent. The company does not materially adjust this information.

Assets and liabilities carried at fair value at March 31, 2023, and December 31, 2022, are as follows:

Cash and Cash Equivalents The company holds cash equivalents in U.S. and non-U.S. portfolios. The instruments classified as cash equivalents are primarily bank time deposits with maturities of 90 days or less, and money market funds. "Cash and cash equivalents" had carrying/fair values of \$15.7 billion at \$17.7 billion at March 31, 2023, and December 31, 2022, respectively. The fair values of cash and cash equivalents are classified as Level 1 and reflect the cash that would have been received if the instruments were settled at March 31, 2023.

Restricted Cash had a carrying/fair value of \$1.2 billion and \$1.4 billion at March 31, 2023 and December 31, 2022, respectively. At March 31, 2023, restricted cash is classified as Level 1 and includes restricted funds related to certain upstream decommissioning activities, tax payments and a financing program, which are reported in "Prepaid expenses and other current assets" and "Deferred charges and other assets" on the Consolidated Balance Sheet.

Long-Term Debt had a net carrying value, excluding amounts reclassified from short-term debt, purchase price fair value adjustments and finance lease obligations, of \$15.3 billion at \$16.3 billion at March 31, 2023, and December 31, 2022, respectively. The fair value of long-term debt for the company was \$14.3 billion and \$15.0 billion at March 31, 2023, and December 31, 2022, respectively. The fair value of long-term debt for the company was \$14.3 billion and \$15.0 billion at March 31, 2023, respectively. Long-term debt primarily includes corporate issued bonds, classified as Level 1 and are \$13.9 billion for the period. The fair value of other long-term debt classified as Level 2 is \$398 million.

The carrying values of other short-term financial assets and liabilities on the Consolidated Balance Sheet approximate their fair values. Fair value remeasurements of other financial instruments at March 31, 2023, and December 31, 2022, were not material.

Properties, plant and equipment The company did not have any individually material impairments of long-lived assets measured at fair value on a nonrecurring basis to report in first quarter 2023.

Investments and advances The company did not have any individually material impairments of investments and advances measured at fair value on a nonrecurring basis to report in first quarter 2023.

Note 13. Financial and Derivative Instruments

The company's commodity derivative instruments principally include crude oil, natural gas, liquefied natural gas and refined product futures, swaps, options and forward contracts. The company applies cash flow hedge accounting to certain commodity transactions, where appropriate, to manage the market price risk associated with forecasted sales of crude oil. The company's derivatives are not material to the company's consolidated financial position, results of operations or liquidity. The company believes it has no material market or credit risks to its operations, financial position or liquidity as a result of its commodities and other derivatives activities.

The company uses commodity derivative instruments traded on the New York Mercantile Exchange and on electronic platforms of the Inter-Continental Exchange and Chicago Mercantile Exchange. In addition, the company enters into swap contracts and option contracts principally with major financial institutions and other oil and gas companies in the "over-the-counter" markets, which are governed by International Swaps and Derivatives Association agreements and other master netting arrangements.

Derivative instruments measured at fair value at March 31, 2023, and December 31, 2022, and their classification on the Consolidated Balance Sheet and Consolidated Statement of Income are as follows:

Consolidated Balance Sheet: Fair Value of Derivatives (Millions of dollars)

Type of Contract	Balance Sheet Classification	arch 31, 023	At December 31, 2022
Commodity	Accounts and notes receivable, net	\$ 153 \$	175
Commodity	Long-term receivables, net	6	9
Total Assets at	t Fair Value	\$ 159 \$	184
Commodity	Accounts payable	\$ 82 \$	46
Commodity	Deferred credits and other noncurrent obligations	21	12
Total Liabilitie	es at Fair Value	\$ 103 \$	58

Consolidated Statement of Income: The Effect of Derivatives (Millions of dollars)

Type of			Gain / (Loss) Three Months Ende March 31	ed
Contract	Statement of Income Classification	202	23	2022
Commodity	Sales and other operating revenues	\$	(97) \$	(873)
Commodity	Purchased crude oil and products		18	(105)
Commodity	Other income		(6)	1
		\$	(85) \$	(977)

The amount reclassified from Accumulated Other Comprehensive Losses (AOCL) to Sales and other operating revenues from designated hedges for the reporting period was \$15 million compared with no impact in the same period of the prior year. At March 31, 2023, before-tax deferred gains in Accumulated Other Comprehensive Losses related to outstanding crude oil price hedging contracts were \$2 million, of which all is expected to be reclassified into earnings during the next 12 months as the hedged crude oil sales are recognized in earnings.

The following table represents gross and net derivative assets and liabilities subject to netting agreements on the Consolidated Balance Sheet at March 31, 2023, and December 31, 2022.

Consolidated Balance Sheet: The Effect of Netting Derivative Assets and Liabilities (Millions of dollars)

At March 31, 2023	Gross Amounts Recognized		Gross Amounts Offset		Net Amounts Presented	(Gross Amounts Not Offset	Net Amount	
Derivative Assets - not designated	\$ 1,999	\$	1,842	\$	157	\$	_	\$	157

At December 31, 2022									
Derivative Assets - not designated	\$ 2,591	\$	2,407	\$	184	\$	5	\$	179
Derivative Assets - designated	\$ 8	\$	8	\$		\$		\$	
Derivative Liabilities - not designated	\$ 2,450	\$	2,407	\$	43	\$		\$	43
Derivative Liabilities - designated	\$ 23	\$	8	\$	15	\$		\$	15

Derivative assets and liabilities are classified on the Consolidated Balance Sheet as accounts and notes receivable, long-term receivables, accounts payable, and deferred credits and other noncurrent obligations. Amounts not offset on the Consolidated Balance Sheet represent positions that do not meet all the conditions for "a right of offset."

Note 14. Revenue

"Sales and other operating revenue" on the Consolidated Statement of Income primarily arise from contracts with customers. Related receivables are included in "Accounts and notes receivable, net" on the Consolidated Balance Sheet, net of the current expected credit losses. The net balance of these receivables was \$12.7 billion and \$14.2 billion at March 31, 2023, and December 31, 2022, respectively. Other items included in "Accounts and notes receivable, net" represent amounts due from partners for their share of joint venture operating and project costs and amounts due from others, primarily related to derivatives, leases, buy/sell arrangements and product exchanges, which are accounted for outside the scope of ASC 606.

Note 15. Financial Instruments - Credit Losses

Chevron's expected credit loss allowance balance was \$951 million as of March 31, 2023 and \$1.0 billion as of December 31, 2022, with a majority of the allowance relating to non-trade receivable balances.

The majority of the company's receivable balance is concentrated in trade receivables, with a balance of \$16.7 billion as of March 31, 2023, which reflects the company's diversified sources of revenues and is dispersed across the company's broad worldwide customer base. As a result, the company believes the concentration of credit risk is limited. The company routinely assesses the financial strength of its customers. When the financial strength of a customer is not considered sufficient, alternative risk mitigation measures may be deployed, including requiring prepayments, letters of credit or other acceptable forms of collateral. Once credit is extended and a receivable balance exists, the company applies a quantitative calculation to current trade receivable balances that reflects credit risk predictive analysis, including probability of default and loss given default, which takes into consideration current and forward-looking market data as well as the company's historical loss data. This statistical approach becomes the basis of the company's expected credit loss allowance for current trade receivables with payment terms that are typically short-term in nature, with most due in less than 90 days.

Chevron's non-trade receivable balance was \$4.4 billion as of March 31, 2023, which includes receivables from certain governments in their capacity as joint venture partners. Joint venture partner balances that are paid as per contract terms or not yet due are subject to the statistical analysis described above while past due balances are subject to additional qualitative management quarterly review. This management review includes review of reasonable and supportable repayment forecasts. Non-trade receivables also include employee and tax receivables that are deemed immaterial and low risk. Equity affiliate loans are also considered non-trade and associated allowances of \$560 million are included within Investments and Advances on the Consolidated Balance Sheet at both March 31, 2023, and December 31, 2022.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

First Quarter 2023 Compared with First Quarter 2022

Key Financial Results

Earnings by Business Segment

		Three Months Ended March 31				
	2	2023				
		(Millions of dollars)

⁽¹⁾ Includes foreign currency effects.	\$	(40) \$	(218)			

(2) Income (loss) net of tax; also referred to as "earnings" in the discussions that follow.

Net income attributable to Chevron Corporation for first quarter 2023 was \$6.6 billion (\$3.46 per share — diluted), compared with \$6.3 billion (\$3.22 per share — diluted) in the first quarter of 2022.

Upstream earnings in first quarter 2023 were \$5.2 billion compared with \$6.9 billion in the corresponding 2022 period. The decrease was mainly due to lower realizations.

Downstream earnings in first quarter 2023 were \$1.8 billion compared with \$331 million in the corresponding 2022 period. The increase was mainly due to higher margins on refined product sales, partially offset by higher operating expenses and lower earnings from the 50 percent-owned Chevron Phillips Chemical Company (CPChem).

Refer to <u>"Results of Operations"</u> for additional discussion of results by business segment and "All Other" activities for the first quarter of 2023 versus the same periods in 2022.

Business Environment and Outlook

Chevron Corporation* is a global energy company with substantial business activities in the following countries: Angola, Argentina, Australia, Bangladesh, Brazil, Canada, China, Egypt, Equatorial Guinea, Israel, Kazakhstan, Mexico, Nigeria, the Partitioned Zone between Saudi Arabia and Kuwait, the Philippines, Republic of Congo, Singapore, South Korea, Thailand, the United Kingdom, the United States, and Venezuela.

The company's objective is to safely deliver higher returns, lower carbon and superior shareholder value in any business environment. Earnings of the company depend mostly on the profitability of its upstream business segment. The most significant factor affecting the results of operations for the upstream segment is the price of crude oil, which is determined in global markets outside of the company's control. In the company's downstream business, crude oil is the largest cost component of refined products. Periods of sustained lower commodity prices could result in the impairment or write-off of specific assets in future periods and cause the company to adjust operating expenses, including employee reductions, and capital expenditures, along with other measures intended to improve financial performance.

^{*} Incorporated in Delaware in 1926 as Standard Oil Company of California, the company adopted the name Chevron Corporation in 1984 and ChevronTexaco Corporation in 2001. In 2005, ChevronTexaco Corporation changed its name to Chevron Corporation. As used in this report, the term "Chevron" and such terms as "the company," "the corporation," "our," "we," "us" and "its" may refer to Chevron Corporation, one or more of its consolidated subsidiaries, or all of them taken as a whole, but unless stated otherwise they do not include "affiliates" of Chevron — i.e., those companies generally owned 50 percent or less. All of these terms are used for convenience only and are not intended as a precise description of any of the separate companies, each of which manages its own affairs.

Governments, companies, communities, and other stakeholders are increasingly supporting efforts to address climate change. International initiatives and national, regional and state legislation and regulations that aim to directly or indirectly reduce GHG emissions are in various stages of design, adoption, and implementation. These policies and programs, some of which support the global net zero emissions ambitions of the Paris Agreement, can change the amount of energy consumed, the rate of energy-demand growth, the energy mix, and the relative economics of one fuel versus another. Implementation of jurisdiction-specific policies and programs can be dependent on, and can affect the pace of, technological advancements, the granting of necessary permits by governing authorities, the availability of cost-effective, verifiable carbon credits, the availability of suppliers that can meet sustainability and other standards, evolving regulatory or other requirements affecting ESG standards or other disclosures, and evolving standards for tracking and reporting on emissions and emission reductions and removals.

Significant uncertainty remains as to the pace and extent to which the transition to a lower carbon future will progress, which is dependent, in part, on further advancements and changes in policy, technology, and customer and consumer preferences. The level of expenditure required to comply with new or potential climate change-related laws and regulations and the amount of additional investments needed in new or existing technology or facilities, such as carbon capture and storage, is difficult to predict with certainty and is expected to vary depending on the actual laws and regulations enacted, available technology options, customer and consumer preferences, the company's activities, and market conditions. Although the future is uncertain, many published outlooks conclude that fossil fuels will remain a significant part of an energy system that increasingly incorporates lower carbon sources of supply for many years to come.

Chevron supports the Paris Agreement's global approach to governments addressing climate change and continues to take actions to help lower the carbon intensity of its operations while continuing to meet the demand for energy. Chevron believes that broad, market-based mechanisms are the most efficient approach to addressing GHG emission reductions. Chevron integrates climate change-related issues and the regulatory and other responses to these issues into its strategy and planning, capital investment reviews, and risk management tools and processes, where it believes they are applicable. They are also factored into the company's long-range supply, demand, and energy price forecasts. These forecasts reflect estimates of long-range effects from climate change-related policy actions, such as electric vehicle and renewable fuel penetration, energy efficiency standards, and demand response to oil and natural gas prices.

The company will continue to develop oil and gas resources to meet customers' and consumers' demand for energy. At the same time, Chevron believes that the future of energy is lower carbon. The company will continue to maintain flexibility in its portfolio to be responsive to changes in policy, technology, and customer and consumer preferences. Chevron aims to grow its traditional oil and gas business, lower the carbon intensity of its operations and grow lower carbon businesses in renewable fuels, hydrogen, carbon capture, offsets, and other emerging technologies. To grow its lower carbon businesses, Chevron plans to target sectors of the economy where emissions are harder to abate or that cannot be easily electrified, while leveraging the company's capabilities, assets and customer relationships. The company's traditional oil and gas business or decrease depending upon regulatory or market forces, among other factors.

Chevron's previously disclosed 2050 net zero upstream aspiration, carbon intensity targets and planned lower-carbon capital spend through 2028 can be found on pages 33 through 34 of the company's 2022 Annual Report on Form 10-K.

Income Taxes The effective tax rate for the company can change substantially during periods of significant earnings volatility. This is due to the mix effects that are impacted by both the absolute level of earnings or losses and whether they arise in higher or lower tax rate jurisdictions. As a result, a decline or increase in the effective income tax rate in one period may not be indicative of expected results in future periods. Additional information related to the company's effective income tax rate is included in <u>Note 9 Income Taxes</u> to the Consolidated Financial Statements.

Supply Chain and Inflation Impacts The company is actively managing its contracting, procurement, and supply chain activities to effectively manage costs and facilitate supply chain resiliency and continuity in support of the company's operational goals. Third party costs for capital and operating expenses can be subject to external factors beyond the company's control including, but not limited to: severe weather or civil unrest, delays in construction, global and local supply chain distribution issues, inflation, tariffs or other taxes imposed on goods or services, and market-based prices charged by the industry's material and service providers. Chevron utilizes contracts with various pricing mechanisms, which may result in a lag before the company's costs reflect changes in market trends.

Inflation continued to be a key factor, although costs are rising at a lower rate than last year. For key oil and gas industry inputs (e.g., rigs, well services, etc.), markets are likely to remain tight. Contracts for labor intensive operations also face a risk of upward pricing pressure due to a shortage of skilled workers. In contrast, inflationary pressures have started to reduce for non-oil and gas specific goods and services as a result of a slowdown in economic activity. Chevron believes it is well positioned to manage its costs effectively, in large part due to indexed contracts and secured supplies for critical inputs.

Other Impacts The company continually evaluates opportunities to dispose of assets that are not expected to provide sufficient long-term value and to acquire assets or operations complementary to its asset base to help augment the company's financial performance and value growth. Asset dispositions and restructurings may result in significant gains or losses in future periods.

The company closely monitors developments in the financial and credit markets, the level of worldwide economic activity, and the implications for the company of movements in commodity prices and downstream margins. Management takes these developments into account in the conduct of daily operations and for business planning.

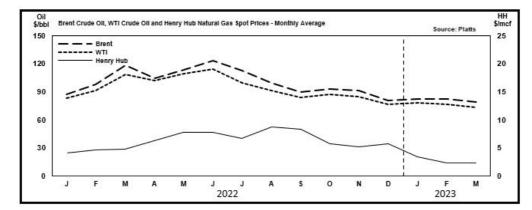

Comments related to earnings trends for the company's major business areas are as follows:

Upstream Earnings for the upstream segment are closely aligned with industry prices for crude oil and natural gas. Crude oil and natural gas prices are subject to external factors over which the company has no control, including product demand connected with global economic conditions, industry production and inventory levels, technology advancements, production quotas or other actions imposed by OPEC+ countries, actions of regulators, weather-related damage and disruptions, competing fuel prices, natural and human causes beyond the company's control such as the COVID-19 pandemic, and regional supply interruptions or fears thereof that may be caused by military conflicts, civil unrest or political uncertainty. Any of these factors could also inhibit the company's production capacity in an affected region. The company closely monitors developments in the countries in which it operates and holds investments and seeks to manage risks in operating its facilities and businesses.

The longer-term trend in earnings for the upstream segment is also a function of other factors, including the company's ability to find or acquire and efficiently produce crude oil and natural gas, changes in fiscal terms of contracts, the pace and extent of the energy transition, and changes in tax, environmental and other applicable laws and regulations.

Chevron has interests in Venezuelan assets operated by independent affiliates. Chevron has been conducting limited activities in Venezuela consistent with the authorization provided pursuant to general licenses issued by the United States government. In fourth quarter 2022, Chevron received License 41 from the United States government, enabling the company to resume activity in Venezuela subject to certain limitations. The financial results for Chevron's business in Venezuela are being recorded as non-equity investments since 2020, where income is only recognized when cash is received and production and reserves are not included in the company's results. Crude oil liftings in Venezuela started in first quarter 2023, which has and could continue to result in a positive contribution to the company's results.

Governments (including Russia) have imposed and may impose additional sanctions and other trade laws, restrictions and regulations that could lead to disruption in our ability to produce, transport and/or export crude in the region around Russia. An adverse effect on Caspian Pipeline Consortium (CPC) operations could have a negative impact on the Tengiz field in Kazakhstan and the company's results of operations and

financial position. The financial impacts of such risks, including presently imposed sanctions, are not currently material for the company; however, it remains uncertain how long these conditions may last or how severe they may become.

The chart above shows the trend in benchmark prices for Brent crude oil, West Texas Intermediate (WTI) crude oil, and U.S. Henry Hub natural gas. The Brent price averaged \$101 per barrel for the full-year 2022. During the first quarter of 2023, Brent averaged \$81 per barrel and ended April at about \$82. The WTI price averaged \$95 per barrel for the full-year 2022. During the first quarter of 2023, WTI averaged \$76 per barrel and ended April at about \$77. The majority of the company's equity crude production is priced based on the Brent and WTI benchmarks. Crude prices decreased in March 2023 relative to first two months of 2023 due to concerns over the possible economic impacts associated with banking failures in the U.S. and Europe and potential impacts of future rate increases by the U.S. Federal Reserve Bank. Crude prices briefly increased in early April 2023 following the announcement of OPEC+ production cuts and have subsequently declined. (See page 30 for the company's average U.S. and international crude oil sales prices.)

In contrast to price movements in the global market for crude oil, price changes for natural gas are also impacted by seasonal supply, demand and infrastructure conditions in regional and local markets. In the U.S., prices at Henry Hub averaged \$2.79 per thousand cubic feet (MCF) for the first three months of 2023, compared with \$4.53 during the first three months of 2022. Robust domestic production and lower demand due to milder weather and liquefaction capacity outages have resulted in lower prices at Henry Hub this year. At the end of April 2023, the Henry Hub spot price was \$2.17 per MCF.

Outside the U.S., price changes for natural gas also depend on a wide range of supply, demand and regulatory circumstances. The company's long-term contract prices for liquefied natural gas (LNG) are typically linked to crude oil prices. Most of the equity LNG offtake from the operated Australian LNG assets is committed under binding long-term contracts, with some sold in the spot LNG market. International natural gas realizations averaged \$9.00 per MCF during the first three months of 2023, compared with \$8.87 per MCF in the same period last year. (See page 30 for the company's average natural gas sales prices for the U.S. and international regions.)

Production The company's worldwide net oil-equivalent production in the first three months of 2023 averaged 2.98 million barrels per day, a decrease of 3 percent from the first three months of 2022 primarily due to the end of the Erawan concession in Thailand. About 28 percent of the company's net oil-equivalent production in the first three months of 2023 occurred in the OPEC+ member countries of Angola, Equatorial Guinea, Kazakhstan, Nigeria, the Partitioned Zone between Saudi Arabia and Kuwait and Republic of Congo.

Refer to the "Results of Operations" section on page 26 for additional discussion of the company's upstream business.

Downstream Earnings for the downstream segment are closely tied to margins on the refining, manufacturing and marketing of products that include gasoline, diesel, jet fuel, lubricants, fuel oil, fuel and lubricant

additives, petrochemicals and renewable fuels. Industry margins are sometimes volatile and can be affected by the global and regional supply-and-demand balance for refined products and petrochemicals, and by changes in the price of crude oil, other refinery and petrochemical feedstocks, and natural gas. Industry margins can also be influenced by inventory levels, geopolitical events, costs of materials and services, refinery or chemical plant capacity utilization, maintenance programs, and disruptions at refineries or chemical plants resulting from unplanned outages due to severe weather, fires or other operational events.

Other factors affecting profitability for downstream operations include the reliability and efficiency of the company's refining, marketing and petrochemical assets, the effectiveness of its crude oil and product supply functions, and the volatility of tanker-charter rates for the company's shipping operations, which are driven by the industry's demand for crude oil and product tankers. Other factors beyond the company's control include the general level of inflation and energy costs to operate the company's refining, marketing and petrochemical assets, and changes in tax, environmental, and other applicable laws and regulations.

The company's most significant marketing areas are the West Coast and Gulf Coast of the United States and Asia Pacific. Chevron operates or has significant ownership interests in refineries in each of these areas. Additionally, the company has a growing presence in renewable fuels.

California Senate Bill SBx1-2, signed into law on March 28, 2023, authorizes the California Energy Commission (CEC) to establish a "maximum gross gasoline refining margin" with respect to certain of the company's downstream activities in California, as well as establish fees for refiners for exceeding this margin. The law further expands on existing reporting requirements for refiners to the CEC. It is uncertain whether, or when, the CEC will establish a maximum gross gasoline refining margin and impose associated fees. We will evaluate the impact that SBx1-2 and any associated forthcoming CEC regulations may have on our current or anticipated future operations in California and results of operations when the regulations have been promulgated.

Refer to the "Results of Operations" section beginning on page 27 for additional discussion of the company's downstream operations.

All Other consists of worldwide cash management and debt financing activities, corporate administrative functions, insurance operations, real estate activities and technology companies.

Refer to "Cautionary Statements Relevant to Forward-Looking Information" on page 2 and to "Risk Factors" on pages 20 through 26 of the company's 2022 Annual Report on Form 10-K for a discussion of some of the inherent risks that could materially impact the company's results of operations or financial condition.

Noteworthy Developments

Certain noteworthy developments in recent months included the following:

- United States Announced an agreement to install new technologies on the company's LNG vessels that are intended to reduce the carbon intensity of its LNG fleet operations.
- United States Announced an expansion of the Bayou Bend carbon capture and sequestration project in the U.S. Gulf Coast through an acquisition of nearly 100,000 acres of pore space, positioning Bayou Bend to become one of the largest carbon storage projects in the U.S.
- United States Announced commercial collaboration to purchase next generation renewable feedstocks that are intended to benefit farmers and increase supplies to meet a growing demand for lower carbon renewable fuels.
- United States Winning bids submitted on 75 exploration blocks in Gulf of Mexico lease sale 259, subject to final government approval.
- United States Achieved first oil at the Mad Dog 2 project in the Gulf of Mexico.

Results of Operations

Business Segments The following section presents the results of operations and variances on an after-tax basis for the company's business segments — Upstream and Downstream — as well as for "All Other." (Refer to <u>Note 7 Operating Segments and Geographic Data</u> for a discussion of the company's "reportable segments," as defined under the accounting standards for segment reporting.)

Upstream

	Three Months March 3			
	2023	2022		
	(Millions of dollars)			
U.S. Upstream Earnings	\$ 1,781 \$	3,238		

U.S. upstream reported earnings of \$1.8 billion in first quarter 2023, compared with \$3.2 billion from a year earlier. The decrease was primarily due to lower realizations of \$1.2 billion.

The average realization per barrel for U.S. crude oil and natural gas liquids in first quarter 2023 was \$59, compared with \$77 a year earlier. The average natural gas realization in first quarter 2023 was \$2.58 per thousand cubic feet, compared with \$4.10 in the 2022 period.

Net oil-equivalent production of 1.17 million barrels per day in first quarter 2023 was down 17,000 barrels per day, or 1 percent, from a year earlier. The decrease was primarily due to the sale of Eagle Ford assets. The net liquids component of oil-equivalent production of 877,000 barrels per day in first quarter 2023 was flat from the corresponding 2022 period. Net natural gas production of 1.74 billion cubic feet per day in first quarter 2023 decreased 5 percent from the 2022 period.

		Three Mon Marc			
	2023		2022		
	(Millions of dollars)				
International Upstream Earnings*	\$	3,380	\$		3,696
* Includes foreign currency effects	\$	(56)	\$		(144)

International upstream operations earned \$3.4 billion in first quarter 2023, compared with \$3.7 billion a year ago. The decrease in earnings was primarily due to lower realizations of \$400 million, higher tax charges related to changes in the energy profits levy in the United Kingdom of \$130 million, lower sales volumes of \$80 million, partially offset by lower operating expenses of \$260 million. Foreign currency effects had a favorable impact on earnings of \$88 million between periods.

The average sales price for crude oil and natural gas liquids in first quarter 2023 was \$69 per barrel, down from \$93 a year earlier. The average sales price of natural gas was \$9.00 per thousand cubic feet in first quarter 2023, compared with \$8.87 in the 2022 period.

Net oil-equivalent production of 1.81 million barrels per day in first quarter 2023 was down 64,000 barrels per day from first quarter 2022. The decrease was primarily due to lower production following expiration of the Erawan concession in Thailand.

The net liquids component of oil-equivalent production of 849,000 barrels per day in first quarter 2023 decreased 1 percent from the 2022 period. Net natural gas production of 5.78 billion cubic feet per day in first quarter 2023 decreased 6 percent from the 2022 period.

Downstraam

	Three Months Ended March 31	i
20	023	2022
	(Millions of dollars)	
S	977 \$	486

U.S. downstream reported earnings of \$977 million in first quarter 2023, compared with \$486 million a year earlier. The increase was mainly due to higher margins on refined product sales of \$860 million, partially offset by higher operating expenses of \$170 million and lower earnings from the 50 percent-owned CPChem of \$160 million.

Refinery crude oil input in first quarter 2023 decreased 3 percent to 890,000 barrels per day from first quarter of 2022. The decrease was primarily due to planned turnarounds at the El Segundo, California refinery.

Refined product sales in first quarter 2023 were up 3 percent to 1.25 million barrels per day. The increase was mainly due to higher jet fuel demand and higher renewable fuel sales following the Renewable Energy Group, Inc. acquisition.

	Three Mor Mar		ed	
	 2023	2022		
	 (Millions of dollars)			
International Downstream Earnings*	\$ 823	\$	(155)	
* Includes foreign currency effects	\$ 18	\$	23	

International downstream reported earnings of \$823 million in first quarter 2023, compared with a \$155 million loss a year earlier. The increase in earnings was mainly due to higher margins on refined product sales of \$1.2 billion, partially offset by higher operating expenses of \$230 million.

Refinery crude oil input of 628,000 barrels per day in first quarter 2023 increased 1 percent from the year-ago period due to increased refinery runs in response to higher demand.

Total refined product sales in first quarter 2023 increased 10 percent to 1.46 million barrels per day from the corresponding 2022 period. The increase was mainly due to higher jet fuel demand as travel restrictions associated with the COVID-19 pandemic continue to ease.

All Other

		Three Mo Ma	nths End ch 31	ed
	_	2023		2022
	_	(Millions	of dollar	s)
Earnings/(Charges)*	\$	(387)	\$	(1,006)
* Includes foreign currency effects	S	(2)	\$	(97)

All Other consists of worldwide cash management and debt financing activities, corporate administrative functions, insurance operations, real estate activities and technology companies.

Net charges in first quarter 2023 were \$387 million, compared to \$1.0 billion a year earlier. The decrease in net charges between periods was mainly due to lower stock-based employee benefit costs and lower pension settlement costs. Foreign currency effects decreased net charges by \$95 million between periods.

Consolidated Statement of Income

Explanations of variations between periods for selected income statement categories are provided below:

	Three Mor Mare			
	2023		2022	
	(Millions of dollars)			
Sales and other operating revenues	\$ 48,842	\$	52,314	

Sales and other operating revenues decreased for the first quarter mainly due to lower commodity prices.

	Three Mor Mare			
	2023	202	2	
	(Millions of dollars)			
Income from equity affiliates	\$ 1,588	\$	2,085	

Income from equity affiliates in the first quarter decreased mainly due to lower upstream-related earnings from TCO in Kazakhstan and Angola LNG and lower downstream-related earnings from CPChem, partially offset by higher earnings from GS Caltex in South Korea.

		Three Mor Mar	ths Ended ch 31		
	2023			2022	
	(Millions of dollars)				
Other income (loss)	\$	363	\$		(26)

Other income for the first quarter increased due to a favorable swing in foreign currency effects and higher interest income, partially offset by lower gains on asset sales.

		Three Mor Mar			
	2	2023		2022	
		(Millions of dollars)			
roducts	\$	29,407	\$	33,411	

Purchased crude oil and products decreased for the first quarter primarily due to lower crude oil prices.

	Three Months Ended March 31			
	2023	202	22	
	(Millions of dollars)			
Operating, selling, general and administrative expenses	\$ 6,902	\$	6,605

	2023 2022				
	(Millions of dollars)				
Other components of net periodic benefit costs	\$	38	\$		64

Other components of net periodic benefit costs for the first quarter decreased primarily due to lower pension settlement costs as fewer lump-sum pension distributions were made in the current year.

		Three Mon Marc		
		2023		2022
	(Millions of dollars)			
Income tax expense/(benefit)	\$ 2,914 \$ 2,77			2,777

The increase in income tax expense for first quarter 2023 of \$137 million is due to the increase in total income before tax for the company of \$465 million. The increase in income before taxes for the company is primarily the result of higher downstream margins partially offset by lower upstream realizations.

U.S. income before tax decreased from \$3.7 billion in first quarter 2022 to \$3.1 billion in first quarter 2023. This \$655 million decrease in income was primarily driven by lower upstream realizations partially offset by higher downstream margins and had a direct impact on the company's U.S. income tax, resulting in a decrease in tax expense of \$161 million between year-over-year periods, from \$900 million in 2022 to \$739 million in 2023.

International income before tax increased from \$5.3 billion in first quarter 2022 to \$6.4 billion in first quarter 2023. This \$1.1 billion increase in income was primarily driven by higher downstream margins partially offset by lower upstream realizations. The increase in income primarily drove the \$298 million increase in international income tax expense between year-over-year periods, from \$1.9 billion in 2022 to \$2.2 billion in 2023.

Additional information related to the company's effective income tax rate is included in Note 9 Income Taxes to the Consolidated Financial Statements.

Selected Operating Data

The following table presents a comparison of selected operating data:

		Months Aarch 31		
	2023		2022	
U.S. Upstream

Liquidity and Capital Resources

Cash, cash equivalents and marketable securities totaled \$15.8 billion at March 31, 2023 and \$17.9 billion at year-end 2022. The company holds its cash with a diverse group of major financial institutions and has processes and safeguards in place to manage its cash balances and mitigate the risk of loss. Cash provided by operating activities in the first three months of 2023 was \$7.2 billion, compared with \$8.1 billion in the year-ago period. Capital expenditures totaled \$3.0 billion in the first three months of 2023, up \$1.1 billion from the year-ago period. Proceeds and deposits related to asset sales and returns of investment totaled \$131 million and \$88 million, respectively, in the first three months of 2023, compared to \$747 million and \$536 million, respectively, in the year-ago period. Cash provided by financing activities includes proceeds from shares issued for stock option exercises of \$146 million in the first three months of 2023, compared with \$4.6 billion in the year-ago period.

Dividends The company paid dividends of \$2.9 billion to common stockholders during the first three months of 2023. In April 2023, the company declared a quarterly dividend of \$1.51 per common share, payable in June 2023.

Debt and Finance Lease Liabilities Chevron's total debt and finance lease liabilities were \$23.2 billion at March 31, 2023, down slightly from \$23.3 billion at December 31, 2022.

The company's debt and finance lease liabilities due within one year, consisting primarily of the current portion of long-term debt and redeemable long-term obligations, totaled \$6.9 billion at March 31, 2023, and \$6.0 billion at December 31, 2022. Of these amounts, \$4.0 billion was reclassified to long-term at March 31, 2023, and \$4.1 billion was reclassified to long-term at December 31, 2022. At March 31, 2023, settlement of these obligations was not expected to require the use of working capital within one year, as the company had the intent and the ability, as evidenced by committed credit facilities, to refinance them on a long-term basis.

The company has access to a commercial paper program as a financing source for working capital or other short-term needs. The company had no outstanding commercial paper as of March 31, 2023.

At March 31, 2023, the company had \$8.5 billion in 364-day committed credit facilities with various major banks that enable the refinancing of short-term obligations on a long-term basis. The credit facilities allow the company to convert any amounts outstanding into a term loan for a period of up to one year. This supports commercial paper borrowing and can also be used for general corporate purposes. The company's practice has been to continually replace expiring commitments with new commitments on substantially the same terms, maintaining levels management believes appropriate. Any borrowings under the facilities would be unsecured indebtedness at interest rates based on the Secured Overnight Financing Rate (SOFR), or an average of base lending rates published by specified banks and on terms reflecting the company's strong credit rating. No borrowings were outstanding under these facilities at March 31, 2023. In addition, the company has an automatic shelf registration statement that expires in August 2023 for an unspecified amount of nonconvertible debt securities issued by Chevron Corporation or CUSA.

The major debt rating agencies routinely evaluate the company's debt, and the company's cost of borrowing can increase or decrease depending on these debt ratings. The company has outstanding bonds issued by Chevron Corporation, CUSA, Texaco Capital Inc. and Noble Energy, Inc. Most of these securities are the obligations of, or guaranteed by, Chevron Corporation and are rated AA- by Standard and Poor's Corporation (S&P) and Aa2 by Moody's Investors Service (Moody's). The company's U.S. commercial paper is rated A-1+ by S&P and P-1 by Moody's. All of these ratings denote high-quality, investment-grade securities.

The company's future debt level is dependent primarily on results of operations, cash that may be generated from asset dispositions, the capital program, lending commitments to affiliates, and shareholder distributions. Based on its high-quality debt ratings, the company believes that it has substantial borrowing capacity to meet unanticipated cash requirements. During extended periods of low prices for crude oil and natural gas and narrow margins for refined products and commodity chemicals, the company has the flexibility to modify capital spending plans, discontinue or curtail the stock repurchase program, sell assets, and increase borrowings to continue paying the common stock dividend. The company remains committed to retaining high-quality debt ratings.

Summarized Financial Information for Guarantee of Securities of Subsidiaries CUSA issued bonds that are fully and unconditionally guaranteed on an unsecured basis by Chevron Corporation (together, the "Obligor Group"). The tables below contain summary financial information for Chevron Corporation, as Guarantor, excluding its consolidated subsidiaries, and CUSA, as the issuer, excluding its consolidated subsidiaries. The summary financial information of the Obligor Group is presented on a combined basis, and transactions between the combined entities have been eliminated. Financial information for non-guarantor entities has been excluded.

Common Stock Repurchase Program The Board of Directors authorized a stock repurchase program in 2019 with a maximum dollar limit of \$25 billion and no set term limits (the "2019 Program"). In the first quarter of 2023, the company repurchased 22.4 million shares for \$3.75 billion. In the aggregate, the company repurchased 153.8 million shares for \$21.8 billion under the 2019 Program, which terminated on March 31, 2023 after completion of the company's repurchases in first quarter 2023.

On January 25, 2023, the Board of Directors authorized the repurchase of the company's shares of common stock in an aggregate amount of \$75 billion (the "2023 Program"). The 2023 Program took effect on April 1, 2023, and does not have a fixed expiration date. The company currently expects to repurchase \$4.375 billion of its common stock during the second quarter of 2023 under the 2023 Program.

Repurchases may be made from time to time in the open market, by block purchases, in privately negotiated transactions or in such other manner as determined by the company. The timing of the repurchases and the actual amount repurchased will depend on a variety of factors, including the market price of the company's shares, general market and economic conditions, and other factors. The stock repurchase program and any forward guidance as to expected repurchases do not obligate the company to acquire any particular amount of common stock, and the program may be discontinued or resumed at any time.

Noncontrolling Interests The company had noncontrolling interests of \$985 million at March 31, 2023 and \$960 million at December 31, 2022. Included within noncontrolling interests is \$145 million at March 31, 2023 and \$142 million at December 31, 2022 of redeemable noncontrolling interest.

Financial Ratios and Metrics

	At March 31, 2023	At December 31, 2022
Current Ratio ⁽¹⁾	1.4	1.5
Debt Ratio	12.7 %	12.8 %
Net Debt Ratio ⁽²⁾	4.4 %	3.3 %

⁽¹⁾ At March 31, 2023, the book value of inventory was lower than replacement cost.

(2) Net Debt Ratio for March 31, 2023 is calculated as short-term debt of \$2.9 billion plus long-term debt of \$20.3 billion (together, "total debt") less cash and cash equivalents of \$15.7 billion and marketable securities of \$130 million as a percentage of total debt less cash and cash equivalents and marketable securities, plus Chevron Corporation Stockholders' Equity of \$159.4 billion. For the December 31, 2022 calculation, please refer to page 49 of Chevron's 2022 Annual Report on Form 10-K.

		nths Ended ch 31

Free Cash Flow	\$ 4,167	\$		6,095

Pension Obligations Information related to pension plan contributions is included in Note 7 Employee Benefits to the Consolidated Financial Statements.

Capital Expenditures The company's capital expenditures (capex) primarily includes additions to fixed assets or investments for the company's consolidated subsidiaries and is disclosed in the Consolidated Statement of Cash Flows. Capex was \$3.0 billion in the first three months of 2023, compared with \$2.0 billion in the corresponding 2022 period due to higher spend in the United States.

Affiliate Capital Expenditures The company's affiliate capital expenditures (affiliate capex) primarily includes additions to fixed assets or investments in the equity affiliate's financial statements and does not require cash outlays by the company. Affiliate capex was \$869 million in the first three months of 2023, compared with \$725 million in the corresponding 2022 period.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Information about market risks for the three months ended March 31, 2023, does not differ materially from that discussed under Item 7A of Chevron's 2022 Annual Report on Form 10-K.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures

The company's management has evaluated, with the participation of the Chief Executive Officer and Chief Financial Officer, the effectiveness of the company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the company's disclosure controls and procedures were effective as of March 31, 2023.

(b) Changes in internal control over financial reporting

During the quarter ended March 31, 2023, there were no changes in the company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the company's internal control over financial reporting.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings

Item 103 of Regulation S-K promulgated by the U.S. Securities and Exchange Commission (SEC) requires disclosure of certain legal proceedings that involve governmental authorities as a party and that the company reasonably believes would result in \$1.0 million or more of monetary sanctions, exclusive of interest and costs, under federal, state and local laws that have been enacted or adopted regulating the discharge of materials into the environment or primarily for the purpose of protecting the environment.

During the quarter ended March 31, 2023, there were no new such proceedings or material developments that occurred with respect to governmental proceedings previously reported but still unresolved.

Please see information related to other legal proceedings in Note 10 Litigation.

Item 1A. Risk Factors

Some inherent risks could materially impact the company's financial results of operations or financial condition. Information about risk factors for the three months ended March 31, 2023, does not differ materially from that set forth under the heading "Risk Factors" on pages 20 through 26 of the company's 2022 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

CHEVRON CORPORATION **ISSUER PURCHASES OF EQUITY SECURITIES**

(1) Includes common shares repurchased from participants in the company's deferred compensation plans for personal income tax withholdings.

 ⁽²⁾ Refer to <u>"Liquidity and Capital Resources"</u> for additional information regarding the company's authorized stock repurchase programs.
 ⁽³⁾ The 2019 Program terminated on March 31, 2023, and was replaced by the 2023 Program. Accordingly, the remaining authorization under the 2019 Program of \$3.2 billion expired on March 31, 2023. Effective April 1, 2023, \$75 billion of shares of common stock was available for repurchase under the 2023 Program.

Item 5. **Other Information**

Rule 10b5-1 Plan Elections

Michael K. Wirth, Chairman of the Board and Chief Executive Officer, entered into a pre-arranged stock trading plan on February 21, 2023. Mr. Wirth's plan provides for the potential exercise of vested stock options and the associated sale of up to 164,600 shares of Chevron common stock between May 23, 2023 and February 16, 2024.

This trading plan was entered into during an open insider trading window and is intended to satisfy the affirmative defense of Rule 10b5-1(c) under the Securities Exchange Act of 1934, as amended, and Chevron's policies regarding transactions in Chevron securities.

RULE 13a-14(a)/15d-14(a) CERTIFICATION PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Michael K. Wirth, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q of Chevron Corporation;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

In connection with the Quarterly Report on Form 10-Q of Chevron Corporation (the "Company") for the period ended March 31, 2023, as filed with the U.S. Securities and Exchange Commission on the date hereof (the "Report"), I, Pierre R. Breber, Vice President and Chief Financial Officer of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that, to my knowledge:

(1) the Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and

(2) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

/S/ PIERRE R. BREBER

Pierre R. Breber Vice President and Chief Financial Officer

Dated: May 4, 2023
