	Fee computed on table in exhibit required by Item 25(b) per Exchange Act Rules 14a-6(i)(1) and 0-11

On April 7, 2022, Chevron Corporation filed its definitive proxy statement for the 2022 Annual Meeting ("Proxy Statement"). Page 35 of the Proxy Statement contains a typographical error whereby "million" and "thousand" are transposed in the description of our 2030 low-carbon business targets for hydrogen and Carbon Capture, Utilization, and Storage ("CCUS"). We are filing this Definitive Additional Material to correct this error. As corrected: "Chevron has also set 2030 low-carbon business targets on renewable fuels (100 thousand barrels per day), hydrogen (150 thousand tonnes per annum), and CCUS (25 million tonnes per annum) in order to help reduce GHG emissions in hard-to-abate sectors."
