

# Upstream major capital projects

## Asia-Pacific region

Project	Location	Operator	WI %	Facility Design Capacity		Current Phase	Startup
				Liquids MBPD	Gas MMCFPD		
Gorgon LNG Trains 1-3	Australia	Chevron	47.3	20	2,580	Production	2016 <sup>(1)</sup>
Wheatstone LNG Trains 1-2	Australia	Chevron	80.2 / 64.1 <sup>(2)</sup>	30	1,608	Prod / Const	2017 <sup>(3)</sup> / 2018
Indonesia Deepwater Development - Gendalo – Gehem	Indonesia	Chevron	63.0 <sup>(4)</sup>	47	1,100	Design	TBD

(1) Start-up of Trains 1-2 in 2016; start-up of Train 3 in 2017

(2) Represents the company's ownership in the offshore licenses and LNG facilities, respectively

(3) Start-up of Train 1 in 2017; start-up of Train 2 is forecasted for Q2 2018

(4) Represents a weighted average of Chevron's interest across multiple blocks or fields

Facility Design Capacity are 100% gross estimates

# Upstream major capital projects

## Europe, Caspian and Middle East regions

Project	Location	Operator	WI %	Facility Design Capacity		Current Phase	Startup
				Liquids MBPD	Gas MMCFPD		
Clair Ridge	UK	Other	19.4	120	100	Construction	2018
TCO Future Growth Project	Kazakhstan	Affiliate	50.0	260 <sup>(1)</sup>	–	Construction	2022
TCO Wellhead Pressure Management Project	Kazakhstan	Affiliate	50.0	Maintain Capacity		Construction	2022
Rosebank	UK	Chevron	40.0	100	80 <sup>(2)</sup>	Design	TBD
Captain EOR	UK	Chevron	85.0	Maintain Capacity		Design	TBD

(1) Represents expected total daily production

(2) 80 MMSCFPD is the gas export capacity to SIRGE, not the design capacity in terms of gas handled when gas lift is considered

Facility Design Capacity are 100% gross estimates; start-up timing for non-operated projects per Operator's estimate

# Upstream major capital projects

## Africa and Latin America regions

Project	Location	Operator	WI %	Facility Design Capacity		Current Phase	Startup
				Liquids MBPD	Gas MMCFPD		
Mafumeira Sul	Angola	Chevron	39.2	150	350	Production	2017 <sup>(1)</sup>
Sonam Field Development	Nigeria	Chevron	40.0	30 <sup>(2)</sup>	215 <sup>(2)</sup>	Production	2017

(1) Early production from the field was achieved in 2016 through a temporary production system

(2) Expected total daily production

Facility Design Capacity are 100% gross estimates; start-up timing for non-operated projects per Operator's estimate

# Upstream major capital projects

## North America region

Project	Location	Operator	WI %	Facility Design Capacity		Current Phase	Startup
				Liquids MBPD	Gas MMCFPD		
Hebron	Canada	Other	29.6	150	–	Production	2017
Stampede	United States	Other	25.0	80	40	Production	2018
Big Foot	United States	Chevron	60.0	75	25	Construction	2018
Tahiti Vertical Expansion	United States	Chevron	58.0	Maintain Capacity		Construction	2018
Mad Dog 2	United States	Other	15.6	140	-	Construction	2021
Kitimat LNG	Canada	Chevron	50.0	–	1,600	Design	TBD

Facility Design Capacity are 100% gross estimates; start-up timing for non-operated projects per Operator's estimate
