REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Plan Participants and Plan Administrator
Chevron Employee Savings Investment Plan

We have audited the accompanying statements of net assets available for benefits of the **Chevron Employee Savings Investment Plan** (the Plan) as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedules of assets held as of December 31, 2013, and reportable transactions for the year ended December 31, 2013 are presented for the purpose of additional analysis and are not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

CHEVRON EMPLOYEE SAVINGS INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1 - Description of the Plan

The following description of the Chevron Employee Savings Investment Plan (ESIP or the Plan), provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that is intended to be a qualified profit-sharing plan under section 401(a) of the Internal Revenue Code (the Code), a qualified cash or deferred arrangement under section 401(k) of the Code, and, effective December 1, 1989, to include a leveraged Employee Stock Ownership Plan (ESOP) qualified under section 4975(e)(7) of the Code.

Plan Sponsor/Administrator. Chevron Corporation (Chevron or the Corporation) is the Plan Sponsor and the Plan Administrator of the ESIP. It has the authority to appoint one or more trustees to hold the assets of the Plan and to appoint a recordkeeper. In its capacity as fiduciary, the Corporation makes such rules, regulations and computations and takes whatever action is necessary to administer the Plan in accordance with provisions of the Code and the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility. Employees of the Corporation and each other participating company (Company) or employees who are represented by a labor organization that has bargained for and agreed to participation in the Plan are eligible to join the Plan if they are on the U.S. payroll.

Contributions. Participants may contribute up to 75 percent of regular pay as combined basic (1 or 2 percent) and supplemental (up to 73 percent) contributions. For 2013 and 2012, the maximum contribution amount on a before-tax and Roth 401(k) basis was the annual IRC limit of \$17,500 and \$17,000, respectively, for participants under age 50 and \$23,000 and \$22,500, respectively, for participants age 50 and up. The Plan has a fixed match feature. The Company will match 4 percent of regular pay on the first 1 percent of the participant's basic contribution to the Plan or 8 percent of regular pay on the first 2 percent of the participant's basic contribution to the Plan. Both participant and company match contributions to the Plan ceased when a participant reached regular pay of \$255,000 and \$250,000 for years 2013 and 2012, respectively.

The Company matching contribution is made in Chevron stock to participants' Leveraged ESOP or Chevron Stock accounts. Thereafter, in accordance with such procedures as the Corporation shall prescribe, a participant may elect to transfer the Chevron stock from the Company matching contribution to other investment funds, according to the Plan's exchange rules. Participants may elect to receive dividends on shares in their Leveraged ESOP and Chevron Stock accounts as a taxable distribution, or reinvest the dividends into their account. Dividends on Leveraged ESOP shares that remained in the Plan were reinvested into the participants' ESOP accounts or into their Chevron Stock accounts.

NOTE 1 - Description of the Plan (Continued)

Vesting. Employees are always fully vested in all contributions to their accounts, as well as the investment income earned from all contributions to the Plan.

Participant Accounts. Contributions are invested in funds within a number of Plan accounts. Employee contributions are comprised of basic and supplemental contributions and rollover contributions from other qualified retirement plans or from a rollover IRA, on a pre-tax, after-tax, or Roth 401(k) basis.

Trustee. Vanguard Fiduciary Trust Company (Vanguard) is the trustee of the Plan. Vanguard is also the Plan's recordkeeper. The trustee has the authority to manage the assets of the Plan in accordance with its terms and those of the trust agreement. On May 30, 2012, the Corporation and Vanguard entered into a sub-trust agreement with State Street Bank and Trust Company (State Street) to perform custodial and administrative functions for the Dodge & Cox Income Separate Account (Separate Account).

Leveraged ESOP. In December 1989, the ESOP borrowed a total of \$1 billion from several banks and used the proceeds of the loans to purchase 14.1 million shares of the Corporation's Common Stock from the Corporation. In October 1991, these loans were completely refinanced by the ESOP's issuance to the public of registered debt securities. In July 1999, the outstanding ESOP loan was completely refinanced extending the ESOP term through the year 2016. Subsequently, accelerated principal payments were made, reducing the loan payment period to end by the year 2013. The rate on the ESOP loan was fixed at 7.327% per year.

The ESOP loan was guaranteed by the Corporation and repaid using dividends paid on the shares acquired by the ESOP and Company contributions. To enforce the ESOP's obligation to pay holders of the registered debt securities, the holders have no recourse against the assets of the ESOP except that, to the extent permitted by the Code and ERISA, the holders had rights to any cash contributions made by the participating companies to satisfy the ESOP's obligations under the registered debt securities and to any earnings attributable to the investment of such contributions. In light of the limited recourse that holders of the registered debt securities have against the ESOP, purchasers of the registered debt securities were cautioned to rely solely upon the creditworthiness of the Corporation and its obligations under its guarantee of the ESOP loan. Unallocated ESOP shares were held in a suspense account and secured the Corporation's guarantee of the ESOP loan. As payments of principal and interest were made on the ESOP loan, shares were released from the suspense account. These released shares were valued at the then current market price for allocation to participants who elected to contribute 1 or 2 percent of their regular pay to the Plan. The ESOP loan was redeemed on July 1, 2013 and all ESOP shares held in the suspense account were released by the end of 2013. As a result, all Company matching contributions with ESOP shares has been discontinued. The estimated fair market value of the notes outstanding as of December 31, 2013 and 2012 was \$0 and \$46,060,609, respectively.

NOTE 1 - Description of the Plan (Continued)

Notes Receivable from Participants. The Plan loan provision allows participants to borrow funds from their Plan account, subject to certain restrictions and limitations. Participants may borrow up to the lesser of \$50,000 or 50% of their total vested account balance or the value of the account(s) used to fund the loan. The minimum loan is \$1,000. The minimum term for repayment of any loan is 6 months and the maximum term is 5 years. However, the maximum term for repayment of a loan to purchase the participant's principal residence is 25 years. Loans bear a fixed rate of interest equal to 2 percent plus the average one-year jumbo certificate of deposit rate, as published in The Wall Street Journal on the last Wednesday of the preceding month. Interest rates charged during 2013 and 2012 ranged from 2.86% to 12.00%. Most loan repayments are made through payroll deductions and the principal and interest paid by the participants are reinvested in the participants' accounts. Notes receivable from participants totaled \$143,105,100 and \$136,847,140 as of December 31, 2013 and 2012, respectively.

Plan Termination. The Corporation expects to continue the ESIP indefinitely, but has the authority to amend or terminate the ESIP at any time. In the event of a plan termination, the trust fund shall continue until any previously unallocated assets of the Plan are allocated to accounts and distributed to participants or beneficiaries in accordance with applicable law and pursuant to written rules and procedures adopted by the Corporation prior to such termination. In addition, upon plan termination, neither the Corporation nor any other person shall have a liability or obligation to provide additional benefits. Participants or beneficiaries shall obtain benefits solely from the trust fund.

Plan Expenses. Effective January 2012, in accordance with the Department of Labor's (DOL) rules under ERISA section 408(b) (2), total all-in fees are disclosed by the service provider. In accordance with these DOL rules, beginning plan year 2012, recordkeeping and trustee fees are unbundled and paid by the participants. Other administrative expenses relating to the Plan, including audit fees and participant education retirement services are paid by the Plan to the extent Plan forfeiture funds are sufficient. If not, such fees are paid by the Corporation. Certain Chevron employee and administrative costs are being reimbursed to the Corporation by the Plan.

NOTE 2 - Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting. The financial statements of the ESIP are presented on the accrual basis of accounting.

NOTE 2 - Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition. Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments in the core and supplemental options are valued on each business day on which the New York Stock Exchange is open for trading to reflect contributions, distributions, income, expenses, gains and losses. The difference between cost and market value represents unrealized appreciation or depreciation as of the reporting date. The valuation of the underlying securities in the Vanguard Brokerage Option and Separate Account is determined daily by Vanguard Brokerage Service and State Street, respectively. ESOP shares released from the suspense account are allocated based on the then-current market value.

Net appreciation (depreciation) in fair value of investments includes realized gains (losses) and unrealized appreciation (depreciation). Realized gains (losses) on investments are based on sales proceeds less average cost. Sales and purchases between participants are included in realized gains (losses). Security purchases and sales are recorded as of the trade date for such transactions.

Dividend income earned on investments held, and interest income earned on funds pending investments are recorded on an accrual basis.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Use of Estimates. The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications. Certain amounts in the prior year financial statements and notes have been reclassified to conform to current year presentation.

NOTE 3 - Fair Value Measurements

Accounting Standards Codification 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability; and

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- Common stocks and debt instruments are valued at the closing price reported on the active market on which the individual securities are traded.
- Shares of registered investment companies are valued at the net asset value of shares held by the Plan at year end.
- The Separate Account is stated at fair value as determined by the issuers based on the unit value of the Separate Account. Unit value is determined by dividing the Separate Account's net assets, which represent the unadjusted prices in active markets of the underlying investments, by the number of units outstanding at the valuation date. While not publicly traded, the Separate Account comprised primarily of underlying securities represented by a variety of asset classes (i.e., cash equivalents, corporate bonds, mortgages, U.S. government and asset-backed securities) that are publicly traded on exchanges or over-the-counter, and price quotes for the assets held by the Separate Account are readily observable and available.

NOTE 3 - Fair Value Measurements (Continued)

- Collective investment funds are stated at fair value as determined by the issuers based on the unit values of the funds. Unit values are determined by dividing the fund's net assets, which represents the unadjusted prices in active markets of the underlying investments, by the number of units outstanding at the valuation date.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

	Investments at Fair Value (in thousands) as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Common Stocks	\$ 9,973,436	\$ —	\$ —	\$ 9,973,436

Tier 3: Supplemental Funds

Fund Name	Fund Type
Dodge & Cox Income Separate Account	Fixed income
Vanguard Windsor II Fund	Large-cap value stock
Vanguard PRIMECAP Fund	Large-cap growth stock
Artisan Small Cap Value Fund	Small-cap value stock
Artisan Mid Cap Fund	Mid-cap growth stock
Neuberger Berman Genesis Fund	Small-cap blend stock
American Funds EuroPacific Growth Fund	International stock

Tier 4: Vanguard Brokerage Option (VBO)

Through the Vanguard Brokerage Services, a participant may choose from approximately 6,000 mutual funds from Vanguard and other companies that are not included in the core or supplemental funds. There is a \$50 annual fee charged to participants who use this option that is paid directly to Vanguard. Within each fund offered in the VBO additional fees may be charged, either accrued within a fund's pooled price or charged directly on deposits or withdrawals depending upon the fund.

Effective April 1, 2013, Vanguard Target Retirement Trusts, SSgA U.S. Inflation Protected Bond Index Fund, and Vanguard Total World Stock Index Fund were added as investment options in the Plan. In addition, exchange-traded funds were added as new investment options under the VBO.

NOTE 4 - Investments (Continued)

Effective April 1, 2012, the following changes were made to the investment options in the Plan. Share classes were changed for Vanguard Total Bond Market Index Fund, Vanguard Institutional Index Fund, Vanguard Total Stock Market Index Fund and Vanguard Extended Market Index Fund (from Institutional to Institutional Plus); Vanguard Prime Money Market Fund (from Investor to Institutional); Vanguard Developed Markets Index Fund (from Investor to Institutional Plus); Vanguard Windsor II Fund and Vanguard PRIMECAP Fund (from Investor to Admiral). Vanguard GNMA Fund Investor shares were replaced with Vanguard Short-Term Bond Index Fund Institutional Plus shares. The BlackRock Small Cap Growth Fund was removed and fund balances were moved to Neuberger Berman Genesis Institutional shares.

The following table presents the investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2013 and 2012.

	2013		2012	
	Participant Directed	Non-Participant Directed	Participant Directed	Non-Participant Directed
	(thousands of dollars)		(thousands of dollars)	
Chevron Corporation Common Stock	\$ —	\$ 9,973,436	\$ —	\$ 8,871,860
Vanguard Total Bond Market Index Bond Fund	1,041,743	—	1,211,290	—
Vanguard Money Market Fund	1,142,279	—	1,168,386	21,360
Vanguard Institutional Index Fund	1,533,420	—	1,179,010	—

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in fair value as follows for the years ended December 31, 2013 and 2012:

	2013		2012	
	Participant Directed	Non-Participant Directed	Participant Directed	Non-Participant Directed
	(thousands of dollars)		(thousands of dollars)	
Common stocks	\$ 5	\$ 1,369,410	\$ (173)	\$ 177,904
Registered investment companies	1,260,716	(68)	556,408	—
Collective investment fund	6,448	—	—	—
Separate Account:		—		
Corporate Bonds	(5,087)		5,107	—
Mortgages	(3,631)		(2,294)	—
U.S. government securities	(1,266)		925	—
Asset-backed securities	(158)		86	—
Total Separate Account	(10,142)	—	3,824	—
Net appreciation in fair values of investments	\$ 1,257,027	\$ 1,369,342	\$ 560,059	\$ 177,904

NOTE 5 - Intra-Plan Transfers

During a Plan year, as payments of principal and interest are made on the ESOP loan, shares are released from the ESOP suspense account and are transferred to the Leveraged ESOP account and are available for benefits. These transfers represent a portion of the employer contribution and reimbursement for the cash dividends paid by the Corporation to those members holding ESOP shares that were used to service the ESOP loan.

NOTE 6 - Income Taxes

The Plan received a determination letter dated October 23, 2013 from the Internal Revenue Service (IRS) stating that the Plan is qualified with the applicable requirements of the Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Corporation indicated that it will take the necessary steps, if any, to maintain the Plan's qualified status.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that would not meet the more likely than not standard and be-sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes, both positive and negative, in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8 - Related Party Transactions

Certain Plan investments consist of shares of common stock of the Corporation and shares of registered investment companies and collective investment fund managed by Vanguard and State Street, respectively. Transactions with the Corporation as the Plan sponsor and Plan administrator, Vanguard, as the trustee and recordkeeper, and State Street as subtrustee qualify as party-in-interest transactions.

NOTE 9 - Subsequent Events

The Plan's financial statements have been evaluated for subsequent events or transactions. The Corporation has determined that there are no subsequent events or transactions that require adjustments to or disclosures in the financial statements.
